

REQUEST FOR INFORMATION (RFI): "Waste Management and Scrap Management Services PCPP01/23"

Thungela Resources ("Thungela") hereby requests your company information to be considered for the undermentioned procurement opportunity.

Colliery Name: Phola Coal Processing Plant – eMalahleni Local Municipality
Reference: Waste Management and Scrap Management Services PCPP01/23
RFI Issue Date: 01 September 2023
RFI Closing Date and Time: 13 September 2023 at 17H00 PM

1. The Opportunity

Phola Coal Processing Plant ("PCPP") is planning to embark on a Request for Proposal (RFP) process for the **Waste Management and Scrap Management Services PCPP01/23** as detailed in the below-mentioned scope of work.

2. Qualifying Criteria

- A minimum of 51% Black Owned businesses from within Phola Coal Processing Plant's Host Communities
- Own or have access to roadworthy Skip Trucks and Grab Trucks to execute Waste Management and Scrap Management Services
- Have relevant experience and references for Waste Management and Scrap Management Services

3. Scope of Work

Phola Coal Processing Plant requires a qualified and accredited waste management, scrap handling, and recycling contractor in possession of all the required permits and licences, equipment, procedures, competent personnel, and financial ability to maintain the waste on its site. The Scope of Work details are as follows:

3.1 Waste Management

- Emptying and collecting wheelie bins in and transfer of waste disposed of in bins to waste skips.
- Picking up of litter and waste around the plant, specifically at access roads, drains and stormwater channels.
- Keeping the entire plant clean.
- Specific cleaning and washing of bins before and after various functions, as and when may be required.
- Washing of the site wheelie bins and replacement of the bins to their required stations.
- Daily sorting of waste and disposal in correct colour-coded waste skips.
- Waste collection - All waste that is collected is to be classified, recorded, photographed, weighed, and declared before leaving the property and will form part of the waste inventory to be maintained and kept by the contractor.
- Waste is to be disposed of at an appropriate registered landfill site.
- A formal internal waste management system is to be used to record and provide reports on the management and volumes of general waste.
- The waste management contractor should have a dedicated skip truck and or access to any other truck authorised to transport general waste.
- All vehicles or trucks transporting waste from PCPP property are to be equipped with acceptable vehicle surveillance and tracking systems.
- All vehicles transporting Phola Coal waste shall be roadworthy and always maintained.

3.2 Scrap Management

- Handle and manage the recyclable material produced at PCPP, with appropriate rebates paid to PCPP monthly.
- Collect the scrap and recyclable material that is produced on-site and move it to the specified skips on-site.
- Skips to be painted with the correct colour coding according to waste classification. Supplier to provide skip bins that have been painted the required colours (prior to being allowed on site, and at the contractor's own cost).
- The collection of the material from the recycling points and removal to a registered facility. All material that is collected is to be classified, recorded, photographed, weighed, and declared before leaving the site.
- Any oils are to be safely removed and any spillages are to be dealt with in accordance with site rules and at the cost of the supplier.

NB: Due to the complexities on site, the scope will be awarded to a single contractor.

4. How to Apply

- 4.1 For submissions, please copy and paste the below link to Internet Explorer/google-chrome/Edge browsers: <https://forms.office.com/e/dhEPPArQUZ>
- 4.2 Supporting documents and list of relevant work done and contactable references - Send separately to the following email address: rfx.submissions@thungela.com with the reference number and company name on the subject line. This information is to be sent to the email (quoting RFI reference) on or before the closing date of this RFI.

NB: Only submissions received via this link and email address will be considered.
